INTERNATIONAL AIRPORT

Cochin International Airport (CIAL) is an international airport serving the city of Kochi, in the state of Kerala, India. Located at Nedumbassery, it is the busiest and largest airport in the state of Kerala. As of 2017, the Cochin International Airport caters to 63.86% of the total air passenger movement in Kerala. It is also the fourth busiest airport in India in terms of international traffic and seventh busiest overall. In fiscal year 2017-18, the airport handled around 10.2 million passengers with a total of 68,898 aircraft movements. The airport is a primary base for Air India Express operations which is also headquartered in the city.

We are very proud to announce the landmark achievement of Hindustan Interiors. Even though we had faced tough competition in order to get this project and the icing on the cake was that we could be able to complete our project in proper time schedule. Through this work we would be able to increase the comprehensive range of capabilities in building, civil engineering related services.

pu flooring

SURFACE PREPARATION:

Substrate must be clean and free of oil, sealers, curing compounds, paint, polymer coatings, dust or other foreign (contaminating) matter. Remove all weak or broken pieces of concrete, if necessary, employ mechanical cleaning methods and equipment. If sealers, paint, polymer coatings or curing compounds are present on concrete substrate should be removed with surface grinding equipment. Complies ASTM D 4263

EPOXY & PU TOPPING:

A mechanical grinding should be carried out to remove the loose particles and open the porosity of the substrate to achieve bonding with subsequent coats. • Apply one coat of Epoxy primer/sealer and lay 3mm, low viscous high strength Epoxy screed comply with ASTM D 695, Cipoxy 90 from Cipy Polyurethane. A mechanical grinding should be carried out to open the porosity of the substrate to achieve bonding with subsequent coats. Apply two coats of FK 333 after necessary priming at 400 μ and leave the surface to dry. Apply one coat of solvent free EPU sealer coat Cipoxy 15 complies with ASTM D 638 & ASTM D 790. Apply one or two coats of Aliphatic (External grade) Polyurethane Deck coating comply with ASTM D 638/695/790 & ASTM D 4060, Cipothane SL from Cipy Polyurethane.

Build Up Thickness:

Epoxy Self Leveling – 3mm + 2 layer of PU Top coat - 400 μ (0.3mm) + PU Self Level – 2mm.

Total System Thickness: 5.4mm.

vinyl sticker

sticker

Vinyl stickers are quite popular and most businesses prefer vinyl for their durability. These stickers offer unparalleled customisation and can be used for large quality graphics that are displayed outdoors. Vinyl stickers are more durable vis a vis paper stickers. In the image, vinyl stickers after being stretched. Clearly vinyl stickers cannot be torn so easily.

As aforementioned, the choice to use paper or vinyl stickers all depends on what you want to achieve. Vinyl stickers are obviously stronger and more durable as they do not fade or get damaged by moisture and weather elements unless it is extreme heat. If you need an all-weather tough long lasting sticker that will be used outdoors, then vinyl is your best bid. They also provide unlimited customisation as you can design various shapes, images, graphics and sizes.

Our team:

We believe an efficient workforce is mandatory for achieving successes in all our projects. We are a close-knit team of architects and designers who work together to translate client's vision into a successful project. Our team consists of individuals who are capable of creating and executing the creative thoughts. The team of Hindustan Engineers & Contractors comprises of professionals and experts from different areas of architecture and interiors designing like, Interiors Decorators, Architect, Interior Designers, Space Consultants, Technical Experts, and Site Supervisors and also 31 staff on its rolls. 200 expert labourers are directly employed by us.

Quality assurance

Our products are tested at different levels under various quality parameters so that any defective piece is not delivered to the clients. The matchless quality of products has enabled us to gain complete customers' satisfaction. Due to our quality based products and customer-centric approach; we have won the heart of our clients.

Infrastructure

We have well-furnished unit in Cochin, which is backed by sophisticated machinery and tools. Our latest machines are capable of producing products in bulk according to the needs of the clients in stipulated time frame. We also have Testing and R&D facilities in our state-of-the-art infrastructure that support us to produce excellent quality range of products.

Quality, Safety & Strength:

Our manage system and procedures exist to ensure that all the requirement needed to attain quality improvement are met. The system and procedures are approved by management at the highest levels, and reflect the company policy as outlined. The management of Hindustan Engineers & Contractors has made the health and safety of its staff, subcontractors, labours, third parties and client's one of its too priorities. Hindustan Engineers & Contractors has a world-class safety program enabling, we believe every accident is preventable, and we continue our pursuit of zero accidents.

what is our stre

ngth

Trustability:

With decades of interior expertise under our belt, Hindustan has earned the trust and support of clients. With numerous industry awards and recognition from both customers and peers, we are confident in our ability to deliver superior products in accordance with customer requirement.

Commitment:

Hindustan commitment to deliver quality projects and services has resulted in the company's acceptance as one of the leading construction firms in Kerala. Our well-defined understanding of client specifications and their requirement for a timely hand over, has served as the principal foundation for our acceptance as an industry leader.

Customer Satisfaction:

At Hindustan our work is never complete without the final nod of approval from our clients. Interior work is processed through stringent quality control measures and only after tedious inspection and tests is the project handed over to the client. We are committed to our clients' approval and our work is not complete until all specifications have been met.

Quality, Safety & Strength:

Our manage system and procedures exist to ensure that all the requirement needed to attain quality improvement are met. The system and procedures are approved by management at the highest levels, and reflect the company policy as outlined.

Continuous Learning:

At Hindustan, learning is ongoing. We believe in integrating the latest in interior, construction and engineering technology to ensure that our projects are not compromised by disruptions or obsolescence. Our IT and communications network has provide the backbone support necessary to move us forward into 21st century. This technology is incorporated into all projects with a support system that is advanced and efficient.
